

1 **SUBJECT:** Health Care Administrators

2

3 **SUBMITTED BY:** William R. Rogers, DO, MPH, FACOFP

4 **REFERRED TO:** Development & Liaison Committee

5 WHEREAS, there is an increasing number of physician’s practices that have oversight by health
6 care administrators; and

7 WHEREAS, this oversight by health care administrators is may be potentially detrimental to a
8 physician’s practice; and

9 WHEREAS, this can adversely affect the safety and lives of patient populations of providers they
10 manage by improper allocation of financial resources; now, therefore be it

11 RESOLVED, that the Texas Osteopathic Medical Association (TOMA) encourages professional
12 physician groups as well as hospital executive committees to create a review process of health
13 care administrators that have oversight of physician practices to ensure that there is a
14 productive relationship and patient care is not being compromised.
