

The Texas Osteopathic Medical Association Announces The ITeam as an Association's Information Technology Business Partner.

The ITeam is a Central Texas based technology company whose focus is on the management & support of IT resources for small to medium sized medical practices and businesses throughout the State of Texas. TOMA selected The ITeam as a recommended IT service provider for a number of reasons, including:

- A business model focused on affordable IT problem *prevention*, not costly problem resolution
- A completely proactive approach to IT infrastructure maintenance & support
- A comprehensive program for the successful deployment of EHR/PMS software
- A financial model that creates a multi-year, fixed IT budget for computer hardware, software & services at an affordable cost
- A proven track record of success in delivering enterprise-level IT service and support
- A management philosophy centered on client profitability
- A model that offers unlimited problem resolution service calls

TOMA members will enjoy these benefits from this strategic alliance between the Association and the ITeam:

- A proven IT service provider
- An affordable financial model
- EHR/PMS deployment expertise
- An effective Information Technology solution that delivers everything it promises
- A 10% IT services discount for all TOMA members
